

A change in DCVC's Mental Health Counseling Reimbursement Policy:

DCVC is pleased to announce that it has revised its Mental Health Counseling Reimbursement policy to streamline the process. Effective July 1, 2018, providers will only have to complete a Mental Health Counselor's Report upon engagement and then a second mental health counselor's report if the counselor determines the victim/patient requires more than 20 sessions. By law, DCVC may only approve a maximum of 40 sessions.

This revised policy is in compliance with SC Law Section 16-3-1180 (A) (1) and was revised to meet the current needs of our victims.
